- An update on the current open court Case, We went back to court on March 2, 2023. The family applied to have the student return to school immediately. It was denied. They have 30 days to appeal to superior court. There still could be a separate filing stating we are infringing on the students' civil rights. We will continue to tutor the student and monitor the status of the charges.
- We are very close to hiring a new athletic director. We should have an answer by tomorrow. The candidate is internal and requests to stay in the teachers contract. The MOA needs to be agreed & signed by the union.
